Subject: Resolution to boycott Hewlett Packard
Date: Wednesday, April 18, 2018 10:27:17 PM

Dear Councillors,

Please register my objection to the resolution to boycott Hewlett Packard because it does business with Israel. I see this resolution as an ill-considered and one-sided attempt to deal with a very complicated situation that has brought suffering to many people in that part of the world. In my view there is need for international concern and cooperation to address the situation there, and I do not wish my city or myself to be associated with the proposed resolution which I think has potential to be used as propaganda.

sincerely,

Miriam Goldberg
